Here are a few random shots from my shows...

In 2018, my son Michael Young joined me in performing at some events around the state as my mix DJ. Michael was chosen to spin at a national DJ conventions for Denon DJ in Atlantic City and Las Vegas!

It is great to see over half the guests still there to close the party!

A shot from the selfie booth with party props. Images are sent right to the guest's cell phone for social media posting.

One of our simple sound systems without lighting.

I love this shot! Two images taken at the same time of and from the Selfie Booth!

Some of the tools of our trade!

We can do a larger light show with uplighting and music video projection. This show utilized a neutral wall, but we can do up to 20 foot screens!

Wedding ceremonies at the lake, out in a hay field, or anywhere without electricity!

A private last dance to reflect on the perfect day!
